RIOTS CONTINUE OVER ELECTION IN GERMANY

Berlin, Germany. The prospect of serious revolt between Chancellor von Papen's Government and Adolf Hitler, National Socialist leader, on the recent bloody riots in Germany was inflated in The Rightmost Five.

This was coupled with evidence that Hitler was expanding his organization efforts into other European countries and planning a powerful Nordic European alliance.

"This Fall we go back to Robin Hood"

JOHN and I had a heart to heart last night on Monday. We decided there are ways to cut living expenses without risking the health of the children and ourselves with inferior food, so this fall we go back to Robin Hood flour. We've had enough of CHEAP, poorly milled flour.

"I have tried not to complain this last year but every time I took a looking out of the oven it made me heart-sick. I hated to put the bread on the table. It was dark and heavy, and lacked the rich appetizing flavor we had been so accustomed to when I used to bake with Robin Hood flour. Now I realize how much has been this false economy, for John and I figured it out last week and discovered that the difference in cost between CLEAN, PURE Robin Hood flour and CHEAP, poorly milled flour, is only 1c PER DAY FOR A FAMILY OF FOUR."

"I'm happy today, for we are going back to Robin Hood. I have been foolish to experiment with the health of my loved ones when a CENT MORE PER DAY will give me good nourishing bread—the white and lightest bread that anyone could ask for. Tomorrow, John is going to the store and bring home some REAL FLOUR again—a bag of Robin Hood."

STUDY THIS PICTURE— THEN THINK

The difference is most between CLEAN, PURE Robin Hood Flour and CHEAP, poorly milled flour is only 1c PER DAY FOR A FAMILY OF FOUR.

WHY NOT TRY POOL ELEVATORS?

Alberta Pool Elevators are now operated under public license and are in a position to handle any grower's grain on the open market here.

The excellent patronage extended to these Pool elevators during the immediate past crop year by many growers who were never members of the Wheat Pool, is testimony of the favorable reputation enjoyed by this co-operative elevator organization.

The Alberta Pool elevators are being operated on a basis of no discrimination between customers and with the definite policy of extending fair and equitable treatment to all persons using its facilities. Why not give the Pool elevator a trial?

Arrangements can be made to pool any proportion of a grower's wheat that he may desire. Information regarding this can be furnished by your Pool agent.

United Church Notes

Lecture on Africa
Much Enjoyed

The lecture and ministered show Sunday night proved a great success. Rev. Davidson delivered a very pleasing, interesting and educational address, while the ladies chanted some street ballads. The church was filled to capacity, and at the close the ladies served a delicious supper.

The choir consisted of Mrs. St. James, organist; Miss Brown, the drums, air synth, violin, Miss Morgan, Whiffery and Mrs. Lawrence, Mrs. J. Pearson, Mrs. Whitehouse and Mrs. Morgan.

Glancing Thru The News

The report that Britain is planning foreign trade treaties with the United States, down east, and the rumored crash-up of the British Government is arousing fear that the Ottawa Conference may have been in vain.

Edmonton citizens were given a further assurance of a plentiful supply of gas when a well in the River's district blew in last week.

Russias lumber is being shipped to Australia. Russia is coming to Canada. Will price Empire preference?

John A. Mackay, the Manitoba lumberer, received a notification of seven years last week, having elected for speedy trial. It is reported that men are leaving the larger grain farms and heading towards the cities before the prohibition of riding the rode goes into force for the first of next month.

What Does Your Label Say?

YOUTHFUL STRENGTH

Dr. Magnus Hirschfeld, the world-known author on Sexology and Director of the Institute for Sexual Science in Berlin, Germany, stated:

TITUS - PEARLS

to help millions of men and women who have lost or are losing their vital physical power. In his 35 years of practical research, however, he realized that the weakening of man's glands was also responsible for other troubles: High blood pressure, hardening of the arteries, physical exhaustion after work or exercise, diabetes, depression, neurasthenia, etc.

All these troubles can be removed with Titus Pearls. Numerous cases were treated by Dr. Hirschfeld in his Berlin Institute.

L.S. (State Official; 60 years old, married) complained of physical exhaustion, dizziness and tremors. Was easily tired. Mental powers dull and slow moving. Physical powers had been increasing for previous 5 years. Blood pressure too high. Given 2 Titus-Pearls 3 times a day. 2 weeks later the medical report on this man was: General health better, more vigor; dizziness and nervousness, returning of power. Treatment continued and two weeks later L. S. reported again, this time to say that all weakness and exhaustion had gone; he felt fresh and buoyant. His blood pressure had fallen, and at 60 years of age he had regained the physical power and virility that he had known in the prime of his life.

Start regaining your youthfulness now! Today! In two weeks time you will be aware of the new virile force within you. Send \$5.00 (cash registered or money order) for 2 weeks treatment.

VOL. NO. 15

BASHAW, Alberta, Wednesday, OCTOBER 24th, 1932

Around Town

Dr. and Mrs. Raper and son have spent the week end in Calgary.

Mr. and Mrs. Skinner and daughter spent Sunday in Mundare.

Mr. Karcher received word on Wednesday morning of the death of his father in Ontario, and left immediately.

Gordon Knels is out thrashing at Preston bluffs.

Don't forget the Ek's Harvest dance on Friday, Oct. 14. \$10 in cash prizes will be given to the holders of lucky tickets at a draw to be held in the hall at midnight. The Mirror High School orchestra will furnish the music.

St. Monica's church, Mirror, are holding an O.E. service on Sunday, Oct. 29th at 2 p.m. The Ven. Archdeacon Time D.D. will officiate. Every body cordially invited.

The tennis dance on Friday night was well attended and a good time is reported.

Mr. and Mrs. Skinner received word from their son, Grant who is in Kingston, Ont. taking a course in medicine. He says he is very much pleased with his surroundings.

We hear that the home recently vacated by Haroldian is not to be vacant long.

The Women's Institute will meet on Wednesday.

Mr. and Mrs. Jack Wells spent Sunday with her parents Mr. and Mrs. Mahoe at New Norway.

The October meeting of the Ladies' Aid will be held Thursday, Oct. 13th at the home of Mrs. Wells with Mrs. Crawford as hostess. As many as possible are urged to be set, as final arrangements will be made for chicken supper to be held Friday, October 22.

Don Hagarty called in town this week, and Mr. and Mrs. Hagarty have taken up residence in Red Deer.

Special Thanksgiving services will be held in the United church on Sunday evening next. The senior choir will supply the music and the church will be suitably decorated. All welcome.

On Monday evening last St. Peter's church was the scene of a very enjoyable social gathering. The A.Y.F.A. invited the adult members of the church, and about 45 turned out. The evening was spent in games and conversation after which the girls served.

Dance at Mirror this Friday under the auspices of St. Monica's church. Good music.

Production Of Gold In Canada Has Shown Remarkable Increase During Last Seventy-five Years

In a brief history of the movement led by the socialist labor party of the newly organized place the mortal blow played in the city of Richmond as far back

[illegible]

The U.S. Supreme Court has ruled that the gold found in the Kibondwe area is the property of the Zambian government. The court's decision is a landmark ruling in the history of the mining industry in Zambia, as it is the first time that the government has been able to assert its ownership of the mineral resources in its country. The court's decision is based on the fact that the gold found in the Kibondwe area is a natural resource, and as such, it is the property of the state. the 1930's after a steady increase from 1923. Canada stopped increasing its share among the world producers supplying the United States. In that year Canada's output was 2,102

South Africa leads among world gold producing countries since 1960. She forged ahead with only slight occasional set backs until the figure was 107,163.1 in 1970.

On a second place with 2,000,319 lbs. of tin. The United States produced 2,191,001 ounces and South Africa, still increasing its output, 10,871,165.

Gold is found in every part of Canada except Prince Edward Island, but the province of Ontario is now

As a matter of course that the only industrial use of the metal is present apart from its ornamental value is in the making of pen nibs and things for teeth. But it retains the only substance that is freely incorporated for all services and commodities, in all sorts of the above. The

the heaviest producer. Of the 1981 production, Ontario accounted for 70 per cent, principally from the Ontario Almaco and Kirtland Lake. Quebec produced 11 per cent of the total, British Columbia 6 per cent, Manitoba 6 per cent, and the balance from Yukon, Northwest, Prince Edward Island, New Brunswick, Nova Scotia, and Newfoundland.

Reaching with coal as the two most important mineral products of the Dominion, gold took the lead in 1981 when the value of the yellow metal produced in this country exceeded the value of coal for the first time.

Changing customs and changed methods have written the history of gold mining in Canada. It rose and declined and re-saw rise to even greater heights.

Placer and alluvial deposit mining first produced \$20,000,000 worth of gold in 1857. By 1867, the Fraser River in Quebec had so rich alluvium made it possible to recover it until 30 years later. When the world was divided by the rush of gold miners to California in 1849 and 1850, Canada became a gold-mining and important discovery

At the present time companies working natural deposits are located in Alberta, British Columbia, Saskatchewan, Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia, and Newfoundland. In 1986 the discovery of rich gravel on the Klondike River in Yukon Territory brought a period of intense gold mining in Canada. Between 1986 and 1990 the total gold production was more than \$100,000,000 from the Yukon alone. At the same time

the industry underwent great stimulation in British Columbia and Nova Scotia. The peak of this development was reached in 1909 when the total Canadian output was 1,250,057 fine ounces of gold, the largest amount recorded for any one year up to that time.

Then production fell off until 1947 when it was only \$80,217 one ounce. Discoveries at Porcupine and Kirkland Lake brought on the greatest production the country had yet known. These were in 1950 and 1952 respectively. The success of these

A black and white photograph of three men standing side-by-side. They are all wearing dark suits, white shirts, and dark ties. The man on the left is wearing a fedora-style hat. The man in the middle is also wearing a hat, possibly a bowler or a different style of fedora. The man on the right is not wearing a hat. They are standing in front of a light-colored wall with some indistinct markings or posters. The photograph is grainy and has a vintage feel.

They were headed by Jeff H. B. Newirth, C.B., C.M.G., secretary of the Canadian delegation, Sir C. J. Howitt-Thomas, K.C.B., C.M.G., of the British Department of Agriculture, V. H. Bayne, M.B.E., Canadian.

Canadian Clubs And Radio

When Edwin Methuen, M. C. The association took a definite

and into the Valley of Shinarump. The latter is a desert of salt and sand. The cluster of grapes we heard that Isaac carried off in a thief incident, was the same as the one that received its name from this incident. The writer of Numbers tells us "The vine also brought forth pomegranates and figs."

The *Shapirah* and *Shimshah* grapes, which are the most common in the desert, the report referred to Moses and Aaron and all the congregation. They were the grapes that were gathered and he declared the land to be exceedingly fertile for that is the meaning of the word *Shimshah* which means rich and bountiful. "Heavy vine of great fruit."

Premier H. B. Bennett will be organization of the commission.

After a further resolution passed by the committee, the meeting adjourned within three days of grape growing for estimate report of national production.

The very appropriate one could almost say "healthful" salads often served in early Roman days when green uncooked vegetables were eaten with meat. The Romans also brought to Rome from Persia salted meat with bread, and early saw the use of olive oil. The use of delicious green leached veal in garum—the ancestor of our modern lettuce and green salad dressings—began in the Mediterranean in ancient times.

It's Time to Order Robin Hood Flour

At this time of year flour bins are bare. It is time to lay in a supply of good dependable Robin Hood Flour. An intricate system of expensive silk sieves is used by Robin Hood Mills to remove dust and dirt. This assures you of CLEAN, PURE flour. Robin Hood flour protects your health and your pocket book. It is both safe and economical.

STUDY THIS PICTURE— THEN THINK

The difference in cost between CLEAN, PURE ROBIN HOOD flour and CHEAP, inferior flour is shown in this picture. It is the difference between a good meal and a bad one. It is the difference between a good meal and a bad one. It is the difference between a good meal and a bad one.

The sugar beet crop being harvested in southern Alberta has proven heavier than expected. More than 100,000 tons will be done from which nearly a million pounds of sugar will be made at the Raymond factory.

A minor at Wynne was killed last week by a fall of rock.

Edmonton boasts a record surplus in the operations of her city utilities this year.

The financial report released by the provincial treasurer for the fiscal year ending March 31 shows a shrinkage in revenue of five millions. The deficit is nearly twice that of last year.

The Viking flour mill was destroyed by fire on Tuesday of last week, also 100 barrels of flour and 250 barrels of wheat.

25 championships and 60 firsts is Alberta's record at the Royal winter show at Toronto.

Alberta has made some very successful winnings at the Royal show at Toronto.

The movement to reduce wheat acreage next year seems to be spreading.

Liquor profits were down almost a million for the past government fiscal year.

B. E. Nade, manager of the Royal George hotel, Edmonton, has just been appointed vice-president of the Alberta hotel men's Association.

The heavy wire "car proof" fencing at death corner, the wider grade and the law to reform motorists to stop 50 ft. each side of the dangerous corner should mean a lot to the safety of motorists.

Motorists will be provided with handy blue and yellow license plates next year if they have the price.

Cattle sales in Edmonton during the past week have been dull. Hogs have been fairly steady in demand.

Memories of the Past

From the files of the Bashaw Star, Nov. 30, 1917.

Mr. and Mrs. Geo. Neils entertained the people of local vicinity at a dance on Nov. 22nd.

Mrs. E. Moser and children returned from Edmonton on Saturday. Lawrence Fanchette accompanied them and will visit here for a short time.

ROOSEVELT WELL GUARDED

Hot bombs thrown but the artists are rushed first among the threats to the peace and well-being of President-elect F. D. Roosevelt. A secret service and police force has been thrown around him at Washington, but largely because the number of the mob willing to kill is more than a crew for the war data problem had reached an enormous size.

Revels is becoming imminent, and the crowd will be a mob and the mob of airplanes according to reports.

Italy Bans Foreign Wheat

More Italian Restrictions Are To Appear On Imports

those of foreign wheat in Italy become effective again and when millers will be required to 90 per cent of domestic wheat in mixing of their flour, the government announced Thursday, June 7.

July 1 was fixed by decree as the date for enforcement of the order against southern Italy and the Province of Lazio. It will become effective against southern and central Italy on August 15.

Wheat restrictions, imposed years ago, were lightened gradually in the last few months.

Canadian Business On the Mend

It is reported that there has been a nation-wide increase in the volume of merchandise sales during the last few months. Many advertisers are preparing to increase their appropriations for 1923. They know that the country is "picking up" and they want to get a share of the new business. Mr. Business Man, are you going to take advantage also?

Shenandoah as a symbol of the threat to the Great Smoky Mountains National Park. The park was not frightened by the threats and the Congressmen who have been its champions. In fact, the park's future is secure. The National Park Service has been working to protect the park since the 1930s. The park is now a national treasure and is protected by the National Park Service. The park is a beautiful area with many scenic views and is a great place to visit. ONE LUCKY LADDER

There is said to be one ladder in Bashaw. How he got there is not positively known, but it is conjectured that he passed off as a minister and stepped on unexpectedly. When the ladder was discovered, they searched corners and dilapidated money papers for evidence, but of course they could not find one, and as the ladder was heavily covered.

Calumni

Mr. and Mrs. O. W. Nelson and Mr. and Mrs. O. W. Nelson were dinner guests at the McCher house on Sunday.

Sunday School was held at the home of J. F. Erickson.

At the annual school meeting of Calumni B.D. on Saturday, Lufky Erickson was appointed new trustee to succeed J. Erickson.

The young people of the district had a busy time last week. The Friday evening they were entertained at the Erickson home on Saturday at the home of Mr. and Mrs. J. Erickson.

WEDDING BELLS

On Wednesday afternoon, Jan. 10, at 2 o'clock, a very pretty wedding took place at the United Church masonic hall, when Rev. H. W. Morrison, officiating in wedding. Miss Margaret E. Smith, daughter of Mr. and Mrs. H. W. Morrison, was united in marriage to Mr. H. W. Morrison, son of Mr. and Mrs. H. W. Morrison. The bride was attended by her mother, Mrs. H. W. Morrison, and the bridesmaids were Miss Margaret E. Smith, daughter of Mr. and Mrs. H. W. Morrison, and Miss Margaret E. Smith, daughter of Mr. and Mrs. H. W. Morrison. The groom was attended by his father, Mr. H. W. Morrison, and the groomsmen were Mr. H. W. Morrison, son of Mr. and Mrs. H. W. Morrison, and Mr. H. W. Morrison, son of Mr. and Mrs. H. W. Morrison. The wedding was a very pretty one, and the bride and groom were very happy.

A SOLUTION

A.F.K. is the Drumheader. But others the reason for the war. The war is not a problem. While not meant seriously, it is what would happen with individuals.

Why not invite the States to foreclose on all debtors' income and take over the value of government? Such a proposal would automatically save the States from bankruptcy.

INFLATION and DEFLATION

Mr. Charles Gordon, president of the Bank of Montreal is opposed to inflation. If there is one line in finance more firmly fixed than another, said Mr. Gordon recently, it is the one certainty that unrestricted issue of paper currency culminates in disaster.

Mr. Gordon refers to "unrestricted" issue of paper currency. It seems that whenever bankers mention inflation they always find it in connection with "unrestricted" issue of money, or the issue of the German mark and Russian ruble.

Those who advocate inflation as a means of helping to rectify our present financial difficulties don't want "unrestricted" inflation, they want "controlled" inflation, and in support of their contention of the evils which it will bring they point to Australia, as one example, where a mild form of inflation is in effect.

Ryan said the printer's shop was a double-breasted union. "He [Rosenberg] at the hospital, sent his card to each of the 'Y' men before going to the prison of Alcatraz to spend the night."

The shooting turned out a happy one for Rosenberg. It was a Sunday, only three hours before he left prison into part time on the A-5 (communist and Jew) from his first crime.

While angry as for the incident has unraveled. He showed no excitement on his car sped away from the scene.

Gale said he heard the shooter cry out as he was overpowered "Wait, go, Oswald."

For the duration periods to help stabilize the construction industry is being urged upon the federal government by the council of the Saskatchewan Association of Architects.

The council met at Regina recently to back up the decisions of a meeting of representatives of the construction industry held in Toronto in January.

Committees were appointed for Regina, Moose Jaw and Saskatoon to see how long it will be to discover what rebuilding could be undertaken by contractors which do not have to depend upon loans to finance construction.

Dr. Charles W. Laid, president of "Laid, Ditch and the Hushky" says:

"Beer and milk are the two great food beverages, the former bearing somewhat the same relation to the adult that milk does to the infant. They both contain a large amount of carbohydrates, lactose in milk and malt sugar in beer. Both beer and milk contain valuable mineral salts, and the two may be compared from the caloric standpoint."

MEMORIES OF THE PAST
From the files of the Bashaw Star, May 15, 1932

Mr. Bashaw died in Edmonton, Friday.

George Mogen was fined \$25 and costs for having set a fire to a fire and damage to the property of A. Farnum.

Harry Phelps has accepted a position at the White Inn.

Lady's Bashaw has been ill with jaundice the past week.

Pete Bodrum, Waterbury, quit, Miss Felt and Harry deacon are among those who for a short leave after reporting for military service.

This week's editorial says: "Bashaw needs a Board of Trade" (and Bashaw still needs it).

BASHAW, ALA. WEDNESDAY JUNE 23, 1933.

No. 40

Local Jottings

Nearly all the ladies were getting 'permanents' at the Whitcomb barber shop on Tuesday. Mr. Miles and his assistant are in charge.

Miss Van Horne, teacher at Matlock was married to Mr. Bill Schultz who is at present helping at the Dunker's milk smith shop. We understand the couple were, quietly married two weeks ago.

Mr. Gibson of the FFD was at Bashaw visiting on Friday last.

Miss Charleston is back at her position as teacher after being relieved for a short time by Mrs. Noble.

Mr. and Mrs. Jack White left on Sunday to make their home in Canmore.

Sharp's dress shop arrived last night in suits of the modish trend. The show was accorded a very good patronage.

The Edmonton 'Grads' went down to defeat for the second time in Edmonton last night, 82 to 48 with the Oklah-ma basketball squad in the North American championship.

Mars Not Inhabited

Amateur fishermen and poultry raisers received a shock when the former learned there was no fish, and the latter that it was necessary to vaccinate healthy chickens.

Proved that there is insufficient oxygen in the heads around Mars to sustain life as we know it on this planet. He has also reported on the abundance of infra-red photography. Dr. W. B. Adams of Mount Wilson Observatory, Pasadena, California, also delegates to the Fifth Pacific Science Congress.

Dr Adams made recent developments in photography showed clearly that the oxygen content of Mars' heads was probably less than one-tenth of one per cent.

"A shock to amateur astronomers," comments Dr. J. B. Stetson, director of the Dominion astronomical observatory at Victoria, B.C., "has the truth been said."

He added that it definitely set back the idea of life on Mars as we know it on earth.

Addressing the national discussion

section of the congress, Dr. J. H. Beach of the College of Agriculture, Berkeley Cal., said amongst we will carry few-pus from disease to healthy chickens. Vaccination against the infection was the practice on many farms, the operation age being from 20 to 30 days.

Summer following has reduced foot-rot disease in western Canada, R. A. W. Henry, University of Alberta, told the delegates. He added that the effect of summer/fallow in reducing severity of foot-rot varied

with the oceans.

Heat Protect Forests

Canada and U.S. Are Given Significant Warning

Although not named other than as "countries on the western side of the Pacific," Canada and the United States are given significant warning to check devastation of their forest area by fire in a resolution passed by the Forestry and Meteorology section of the Fifth Pacific Science Congress.

Following a meeting, a joint committee consisting of Dr. C. D. Howe, dean of the faculty of forestry, University of Toronto; R. H. Norris, of the United States weather bureau, San Francisco; S. Fujihara, Japan, and Dr. Y. Y. Lin, China, prepared the following resolution:

"Whereas in many countries of the Pacific basin, especially in those on the eastern side of the ocean, forest fires are increasing in number and destructiveness;

"Be it resolved that the Pacific nations unite their efforts toward the conservation of their forests."

The Japanese army which recently

Marking the second time a Japanese plane overflew at this airfield, a Japanese lumber—minus the fuselage—came down on the Chinese airport at the outskirts of the city. It carried a representative of the Japanese navy asking a responsible Chinese official to whom he could hand the condemnation.

Findings: no one with authority at the airport, he took off again in the plane. Saw over the Japanese ignition and dropped a letter within a metal cylinder which requested the Japanese ignition officials to convey the message to Chinese military leaders.

S. CHECKS UP ON THE WAR DEBT PAYMENTS

ington, Europe paid a little less than eight per cent. of the interest on debt instruments they owned. Economically, following the war, the United States took a severe hit. The debt agreements from President Roosevelt were often after the diplomatic necessities of the doing nations and of the state departments to meet the demands of their governments. And finally the United States payments from Axis state debts to be five and probable defaults there where the Axis governments paid to full the statements all the payments \$100,000,000 Great Britain about \$100,000 Italy, a maximum of \$100,000,000 The United States government announced the full payment of \$62 from Finland 1-4-41 \$111,000,000

Meanwhile, the debt controversy has inevitable echo in congress, this time it was a statement by the Hon. John D. Dingell, independent Michigan, supporting President Roosevelt's action in receiving payments.

"Appetite is a function of the brain as much

A lecture started, issued by his aid. "The Communist party has succeeded in its agreement with the chamber (Hildey)." The election of the Comintern marks the end of the parliamentary system, and the beginning of the end of political Christianity. The Russian Populists, states the Comintern, are the only party in the world, which has been able to get 80 of 846 seats in the pre-war parliament.

Dr. Volkmann, or People's guru, of the little Chamber Center Strum, which had only two voting seats but was formerly more numerous, also spoke for some time.

Three parties followed the lead of the Nationalists, who had combined with the Communists, and the Socialists, who had been the mainstay of the Reichstag. The latter party, at an unfair price because of its own weakness, had sold its command to what is proclaimed to be the "strongest party."

Light For Plant Growth

Various tests in England showed that the light of the sun is the best for plant growth.

It is not surprising that the light of the sun is the best for plant growth. The light of the sun is the most powerful and most abundant source of light available to plants. It is the light of the sun that gives plants the energy they need to grow.

According to J. E. H. Smith, of the University of Cambridge, the light of the sun is the best for plant growth. He found that plants grown under the light of the sun grew faster and taller than plants grown under artificial light.

Approximately the same results were found in other experiments. The light of the sun is the best for plant growth. It is the light of the sun that gives plants the energy they need to grow.

In addition to the fact that the light of the sun is the best for plant growth, it is also the most economical. The light of the sun is free, while artificial light is expensive.

Another effect of artificial light on the growth of plants is that it tends to make the plants grow in a more upright position. This is because the light of the sun comes from all directions, while artificial light comes from a single direction.

Plants grown under artificial light also tend to have a more uniform growth. This is because the light of the sun is not always the same, while artificial light can be kept at a constant level.

Plants grown under artificial light also tend to have a more uniform color. This is because the light of the sun contains all the colors of the spectrum, while artificial light may lack some of the colors.

Plants grown under artificial light also tend to have a more uniform texture. This is because the light of the sun is natural, while artificial light is synthetic.

Plants grown under artificial light also tend to have a more uniform shape. This is because the light of the sun is natural, while artificial light is synthetic.

Plants grown under artificial light also tend to have a more uniform taste. This is because the light of the sun is natural, while artificial light is synthetic.

Plants grown under artificial light also tend to have a more uniform smell. This is because the light of the sun is natural, while artificial light is synthetic.

MEMORIES OF THE PAST

From the files of the Bashaw Star, July 18th, 1915.

The Military Review Act has passed in the House of Commons, which parliament authorized it to pass.

A picnic was held in Mirv on July 12th by St. Peter's church. Mrs. H. Jones, St. Peter's, was the hostess.

Amusement appears this week that Bashaw's men are taking a photograph studio in Bashaw.

Today, Thursday is the last day this season in the Bashaw fair.

Leather straps met with a success against wet work, with breaking new land. The show has a strong and well attended, the power parking has just shown the best and all but covered the cord.

Shoe styles are to be restricted in Canada. The regulations will be to have shoes black, white and two shades of tan. The height of the top will be restricted to 4 inches.

J. W. Haggerty who has a full stock of Bashaw's reports what is his first to be of inches high.

Miss Lucille, President of the Bashaw, is home for her vacation.

The long looked for Bashaw's offensive against the Bashaw at daybreak. The attack was made by the Bashaw and the Bashaw was the Bashaw.

Good Crowd at Moose Frolic on Wednesday

The Moose sports on Wednesday night came up to expectations, and in spite of the rain the attendance was very close to the 100 mark.

The parade, led by the B.C. M.F. and the band marched up and down Bashaw ave. at noon and was very interesting. In the parade, were floats for the Red & White, Wheel Pool, Moose Lodge, Bashaw Garage, Bashaw Creamery, Almas Ties, Bargain Station, who, the M.F. and the band. The parade was captured the prize with their Alma and Andy got the which consisted of a deploded kicking car without tires, containing the two famous slugs. After the parade, the crowd gathered at the fair grounds for the races, basketball, softball etc.

In the half power auto races J. Jackman retained the championship in the 4 1/2 mile class, while G. J. Nason captured the 6 cylinder class. A great many kids were led for the children and were the centre of attraction for the crowd.

The refreshment table led a rushing business during the afternoon, while among the children was the airplane which was also kept busy taking up passengers. The dance in the evening was equally well attended and the White, Shiro 6 worth time and good music.

Taking everything into consideration the fair was thoroughly successful and goes down in the records of Moose Lodge No. 1000 as being a success in every way.

WEDDING

WEATHERILL-BROWN

On Monday, July 17th at high noon a very pretty wedding was celebrated at the rectory of St. Mary's Cathedral, Calgary, when Elizabeth Brown, eldest daughter of Mr and Mrs J. C. Dauph, Calgary was united in marriage to Basil Weatherill, eldest son of Mr and Mrs Wm. Weatherill, of Toss. The bride wore a gorgeous gown of red, a egg blue, with long hair, gloves and slippers to match, and carried a beautiful bouquet of pink butterfly roses.

Mrs. Lawrence, eldest sister of the groom acted as matron of honor, wearing her own wedding dress of ivory satin, with hair and shoes matching. She carried a bouquet of pink and white carnations. Little Miss Mary Dauph, sister of the bride, acted as flower girl, carrying a basket of ivory pins and fern. The groom was attended on the bride's brother, James J. Dauph.

After the wedding a reception was held at the Yon Kettle Inn, where sixty guests were entertained with songs and dancing. A reception was also held on Saturday, July 22nd, at the home of Mr and Mrs Wm. Weatherill, about one hundred and forty guests were received. The gifts from Calgary and Toss showed the bride's office and maid: "We, I read your advertisement and as near as I can figure, there is nearly the kind of farm I have been looking for all my life. I'll buy it soon."

When the farmer got his next week's edition of his local newspaper, he read the real estate agent's advertisement. It stated that his farm was for sale. It was all fertile, there were 40 acres of fine pasture, a fine house, barn and other buildings. It was close to town and well stocked with pigs, horses, cattle and chickens. In fact it was an ideal farm and an excellent buy for someone.

The next day the farmer called at the real estate's office and said: "We, I read your advertisement and as near as I can figure, there is nearly the kind of farm I have been looking for all my life. I'll buy it soon."

The inventor of the policy of "truth in advertising" died in New York this week before he had got the book publishers of his country to see his point. For the United States is distinctly not a book-reading country," says **Samuel Clemens**, New York book publisher. And he blames it in great part on the college which he says treats in too many of their students an apathy towards reading.

But surely the greatest creators of apathy towards reading must be

Discovery of a sulphur-sodium antitoxin more effective against certain cyanide poisoning than anything previously known is claimed in a report published in New York by John A. Drake of the University of Wyoming.

The antitoxin thwarts cyanide poisoning by anything else in effectiveness against cyanide poisoning, he says. He credits the cyanide discovery to F. F. Skellern, an Italian scientist.

The antitoxin is sodium tetrathionate, a well known synthetic chemical. Its constituents are sulphur and sodium. Drake used it by intravenous

An Interest Meeting

A Boat was engaged in an argument with a conductor as to whether the fare was five or ten cents. Finally the disgruntled conductor picked up the businessman's suitcase and tossed it off the train, just as they passed over a bridge. It landed with a splash.

WEDNESDAY

BASHAW, ALA. WEDNESDAY SEPTEMBER 20, 1920.

MEMORIES OF THE PAST

From the files of the Bashaw Star, Sept. 12th, 1918.

E. Bashaw of Dewey, B.C. is a visitor in town.

New grain has commenced to come in to the elevators.

A. G. Bergquist unloaded a new separator this week.

Reg. Pearson, lately wounded, is now in hospital in Kam.

Fr. L. Plackton who went over with the mountain has transferred to the air force.

J. Jackshaw is grinding 1000 bu. of grain for B. Suter.

A fire caused by gasoline set fire to the crop in the Agric. on church Sunday last, but for the prompt action of J. E. Cummings serious damage might have been done.

Mr. Cummings was badly burned about the hands.

A bear drowning accident occurred at Pt. 13 recently when Roland Peterson of Mosley Creek fell out of a boat into deep water. He was drowned.

— given first aid.

The W.I. meeting on Saturday was very successful. A large number attended and the "banquet" put on by Mrs. Tord and Mrs. Trapwood was enjoyed by all, especially the birthday celebration for Mrs. Whitney and Mrs. Neustling. Jolly demonstrations were given by Mrs. M. Walcott and Mrs. Scott.

The Lutheran congregation at Meeting Creek held a picnic at Pt. 13 on Sunday.

Robert Deringer was able to attend the service at the Tiff. say home on Sunday. He has been in a plaster cast for several months, necessitated by an injury to his back while coasting last winter. He is expected to be on his feet in a few weeks.

A Message to the Alberta Grain Growers

The Alberta Wheat Pool closed its books on July 15th for the 1919-20 business year. The organization is pleased to state that the volume of business transacted during the year was the largest. Pool elevators have ever enjoyed.

The natural conclusion is that thousands of grain growers who have given their patronage to this grower - controlled co-operative are appreciative of the services rendered and are determined to build up within the boundaries of this Province a strong and aggressive organization on a co-operative basis.

The organization exists and would appreciate during the new crop year a continuation of the patronage so generously extended in the past. Those who have never before utilized a Pool elevator facilities are invited to do so with the assurance that careful, courteous and efficient attention will be given to all business entrusted to it.

The welfare of agriculture in Alberta would suggest that all grain growers should be concerned in the upbuilding of a truly co-operative elevator organization created and governed by the grain growers of the province and interested primarily in the welfare of Alberta agriculture.

LAKESHORE

The Community Club will meet at the schoolhouse today.

Glen Humphrey has a crab apple tree which produced two bushels of delicious fruit.

The Club members are making plans for a play to be put on this winter.

Threshing is nearly completed, and the yields were as good as could be expected.

Mr. and Mrs. Allen were visitors at the L. E. Humphrey home.

Miss M. Kiler has been staying at Colonel Kiler's during the vacation.

Commerce at Donalds and Elizabeth changed hands the past week. K. Toppeng and Ralph Bailey formerly of Bashaw and now of Donalds have sold the Donalds estate and purchased the Elizabeth house from the Rev. (Canadian) Co. Mr. and Mrs. Toppeng have moved to their new home while Mr. and Mrs. Bailey and wife remain in Donalds for the present.

WATER GLEN

Mrs. Beaulac entertained the St. Peter's Lutheran Ladies' on Tuesday.

Mrs. Godfrey Nelson, who are away to leave, have been quite ill for the past three weeks.

Mr. and Mrs. T. Burnett and family and Mr. and Mrs. E. J. Gustafson and family spent Sunday with Mr. and Mrs. T. Scott at Pombia.

There are signs of wedding bells in the Glen.

VILLAGE COUNCIL

A regular meeting of the Council of the Village of Bashaw was held in the Secretary's office on October 2nd with Const. Robertson, Mayor Stubbis, the Secretary and Constable present. Minutes of meeting held September were read and adopted.

Moved by Stubbis that owing to the very unreasonable attitude adopted by several dog owners in regard to paying of their licenses, and the unnecessary amount of trouble and annoyance caused to the council and constables, therefore be it resolved that in 1934 and following years, licenses must be paid on or before Feb. 1st in each year, according to the provisions of Bylaw No. 11 of the Village of Bashaw, or prosecution will follow without further notice.

The following accounts were presented to the council and on motion of Robertson were ordered paid: Bashaw Merc. 6.00, McNeil Bros. 12.00, Red-White 6.00, E. Kimmelman 10.00.

Moved by Robertson, that a grant of \$10 be given the Salvation Army for the present.

Adjournment moved by Stubbis.

A.Y.P.A. NOTES

The first meeting of the A.Y.P.A. was held on Sept. 25th for the election of officers which are as follows: President, Ben Holt; Vice President, Ralph Helt; Sec. Paul Helt; Treas. Lena Pearson; Young George McDonald; There will be a social evening in the school on October 6th at 8 o'clock. All those wishing to join are cordially invited. The age limit for boys is 18 and over, and girls 16 and over.

The Mirror lodge of the Modern Woodmen of America will be in Bashaw on October 12th, illustrating the growth of the Dominion up to the present time.

New Masonic Temple One of the Finest in the Province

Bashaw certainly has something to be proud of in the new Masonic building, which is the finest of the kind in the province. The building is of the modern design and workmanship reflects a great deal of credit on those in charge of the work. The total cost will be approximately \$40,000, this figure being due to the amount of contributed labor. The building is 26,500 ft., and has a neat and spacious lodge room and full bathroom.

The main lodge room with its highly polished hardwood floor presents a pleasing appearance. An attractive room at one side of the entrance makes a very suitable room for committee work.

A great feature of the building is the large basement with its stone floor and its plan to take up room, which makes it ideal for holding banquets. The kitchen part, which is a new feature, consists of hot and cold air ducts which eliminate the necessity of a network of pipes and given an even temperature, perfectly controlled.

Founded in 1913 with Mr. A. J. Whitty as W. Grand Master, Pledge lodge had its headquarters in the long-rented building with 10 members to start with. In January 1922 the building was destroyed by fire, after which the lodge room was located in the old Whitty hall, now the Catholic church. In 1924 the lodge moved to the new, Haggerty building and have occupied the upstairs portion until the present time. Pledge lodge celebrated its twentieth anniversary this year and has now 50 members.

A REMINDER !

A few years ago thousands of Alaskans furnished and worked for the Alberta Pool Elevators. As a result the Pool system covers the Province in a close network.

The same reason which inspired grain growers to ask for the service and protection of this co-operative system of elevators suggest that patrons should continue to be extended to them on a generous scale.

Foreclosure Proceedings

Large Tracts Of Land In Hamilton And Massachusetts Are Involved

Foreclosure proceedings involving first mortgage delinquencies in excess of \$500,000 and second mortgage delinquencies of \$753,000 on large tracts of land in Massachusetts and Hamilton

luffed during the past eight years by Alumineries, have been taken in Alumineries courts. By an order made recently arrests must be paid by October 3, 1981, or forfeiture will be issued.

The debtors' funds first listed were to be made for larger investments in Canada while the second loan funds were paid mainly to Alumineries already settled in Canada and the United States.

As a result of the order, the Alumineries industry in Canada, the United States and the United Kingdom, today is in a state of chaos or worse. Central Alberta Dairy Pool, Ltd.

ALTA. ALBERTA

Attention Dairy Farmers

At present the price of No. 1 Creamery Butter is 16 cents per pound, and the price of special cream is 10 cents per pound. A difference of 6 cents. Special and No. 1 cream makes No. 1 butter, and 20 pounds of material makes 100 pounds of butter.

When butter is sold at 14 cents per pound, the 10 pounds of butter is 140 cents, and the 10 pounds of special cream is 100 cents. The difference is 40 cents. The 10 pounds of butter is 140 cents, and the 10 pounds of special cream is 100 cents. The difference is 40 cents.

Instead of feeding and milking the cows, wouldn't you, Mr. Dairy Farmer like to be in the creamery business? Well, you can easily get into the Creamery business. All you have to do is to join the Central Cream Pool. You will get all the profit there is in it. In addition, to your initial payment for Cream.

Write the office at Alta. We will gladly mail you all particulars.

WESTERN CANADA'S LARGEST CHEASERY

ALEX. ALBERTA, January, 1934

Dear Members:

The Pool has \$44,861.12 in a Trust Account in the bank. This is the amount of the patronage equity reserve for the last year's operations of the Pool, from March 1st to December 31st, 1933, for which you received a Series "A" Certificate, therefore, this letter only applies to the redemption of Certificate.

We are ready to distribute this money to our loyal members, upon your returning Series "A" Certificate for cancellation. These who have already mailed their certificate may disregard this notice.

Kindly mail on your Series "A" Certificate only. NOTHING MORE NO LESS, as that is the only Series that is being redeemed at the present time. On receipt of this we will mail you a cash ticket for the amount shown thereon.

For those who have lost the document, we will send you an application, a form to fill in, an Indemnity Bond, which, when you have completed and returned to us, we will accept same in the place of the Certificate, and you will receive your money. All this creates considerable work, therefore we appeal to you to take good care of your certificate in future, as in no instance will duplicate be issued.

We also wish to advise you that the Pool has annual the \$100 amounting with the most excellent results, and you will receive a cash dividend for last year in time for your meeting operations, the time when you need the most the most. Further, we will reward you that at the end of 1933, we closed our ninth year of operations, without one single cent of debt, and we have money in the bank during interest, instead of at borrowing, owing the bank money, and paying them interest on it.

Your business has been piloted through the depression and its profoundest crisis, it has been proven that Co-operation is depression proof, which cannot be said of the profit system.

The assets of your organization now stand at the remarkable figure of approximately \$100,000 which has been accumulated during the past nine years, while you have also received an annual dividend during the same period, and still there are farmers milking cows for the benefit of the old system to make a profit on. Can you imagine them continuing to do this?—when the Central Alberta Dairy Pool has created such a new economic system, for the benefit of the farmer, which will last them out of hard times if they could only see it.

The Pool has been paying \$2 million for cream since Christmas Day, and has consistently led in price advances.

Yours very truly,

CENTRAL ALBERTA DAIRY POOL, LIMITED

Per M. A. Lorton, Manager.

EXTENSION BEER PARLOR

Principle of allowing beer to be sold for consumption off the premises and the keeping of beer parlors open until 11 p.m. and 10 p.m. on Saturdays may be among the things to be made in the liquor act. There may also be a change in the licensing of beer parlors and reduction of permits to 50.

BODDY & McLEOD PREPARE FOR BURY BEHAR

The garage operated by Messrs. Boddy & McLeod is now equipped with a device for recharging new valves used in auto tires and also a valve refiller. With this new equipment they are able to turn out first class job on any car of truck and increase the life of the motor at a nominal expense.

A PROMISE MADE IS A DEBT UNPAID

There are still a few "outstanding" on some of the roads. It is a pity that some of the roads are not being improved.

Since then, he has been in a constant state of flux, but his latest step is the creation of the National Islamic Movement, which he has named the Islamic Movement of America. He has also announced that he will be moving to the United States to live with his family.

Mr. Hoover said: "and if we do not have the consent of the business people of the country, we should never even begin to ask the government to do anything for us."

Nothing is going to come of it unless if the business people of the country will co-operate," he continued.

A set of rules to assure fair methods will be established, it must be the men to the front, the owners who make the money can go to the government and say it is essential, and if the state is to have any effect, it is the business man's duty to the people.

ADVICE ON COUCH GRASS BRADATION IS NOW AVAILABLE

Montreal Grass Dealers Please Scientific Study for Control of this Weed

Scientific methods of control and eradication of couch grass, a weed which is spreading over western Canada, is now available in a pamphlet prepared by Dr. G. P. McNeill, Prof. of Agriculture and W. Thibault, B.S.A., Assistant on weed research, of Agricultural College of Manitoba University on behalf of the Montreal Grass Dealers' Assn. This attractive pamphlet, containing through-

out the results of numerous scientific studies of the weed problem which has been published in pamphlet form. The results of these investigations have been published in pamphlet form. The pamphlets are being distributed free at all the local country dealers.

The pamphlet dealing with Couch Grass contains information for the control and eradication of this weed in a manner that the ordinary layman can easily read and follow. Any farmer troubled with Couch grass in his fields should obtain a copy. It is also particularly valuable and informative to farmers who wish to keep their fields free from this weed.

British Liberals Call For Immediate Abolition Of Protection

Four hundred Englishmen after having a demand for immediate return to free trade the National Liberal party conference adopted the statement of policy which calls for gradual abolition of protection and recommends the Ottawa trade pact as hampering general trade.

If and when the Liberals return to power the return from the protective system instituted by the National government two years ago, will be by gradual stages the confer-

The official statement of policy, entitled "The Liberal Way" was, however, he explained, in order to make plain to any doubters that the party still stands for free trade. He pointed in the policy to a general declaration of the trade agreement negotiated by Ottawa on the grounds that its ratification had increased trade between Canada and the United States. He referred to the international field, where there is no increase in exports, but where there has merely transferred trade from foreign countries, and that the

TO STIMULATE TOURIST TRADE

CITIZENS A \$300,000 Federal advertising and publicity campaign in support of the tourist trade in the city of Champlain-Maurice and the towns of Shawville and Hébertville, taking a very property toll.

Strong winds formed the Stm- of Champlain-Maurice and more than 60 houses were destroyed. Damages

part of the tourist industry throughout the Dominion, to start immediately was advocated before the Senate Tourism Committee by Theodore G. Morgan, Montreal, chairman of the executive committee of the Canadian Association of Tourist and Publicity Bureaux.

The winter committee under the chairmanship of Senator W. H. Hiram, Halifax, is engaged in formulating a plan for national reconstruction of the tourist industry, supplementing the proved activities of the province's transportation companies, automobile, hotel and aviation, boat,

It had been suggested that a federal tourist department of advertising, publicity and development be established to supplement the activities of the provinces and local organizations.

The campaign for this year should be pushed immediately, said Mr. Morgan. The summer tourist traffic also commences in May and builds up throughout June, July and August. An immediate campaign would not only be effective this year, but would stimulate fall and winter business.

Should upon financial returns to Montreal from the expenditures of the Montreal Labour Bureau, Mr. Morgan advanced \$200,000 as a substantial amount that should be appropriated for a 1964 campaign. He further stated that the Montreal Labour Bureau of workers of better of learn.

"Even apart from the sphere of trade there can be no doubt that the Pacific ocean is becoming more and more a centre of international importance. It is always my confident belief that all the nations bordering

Flying Wheels, Mud, Oil or Water can't harm the Kneecap Mechanism

CHEVROLET'S Kneecap is a very special type. In this construction, the seat springs, which is the heart of the mechanism, is safely and solidly enclosed in a heavy steel housing. This keeps out dirt and flying stones, prevents the spring from wear, rust and expansion. The result: a smooth, steady flexing slide... a cushioned back... and completely absolute proof against any snapping, shaking, shuddering or jolting when the front wheels meet a bump. Choose a Chevrolet and make sure you get the safety type of Kneecap in your next car.

KEEPING UP QUALITY

The reputation of Canadian wheat on the markets of the world is due to the efforts wester farmers have made to keep up the quality of their production.

And the reputation of United Grain Growers is similarly based on submitting offers to keep up the quality of its service to farmers in handling their grain and furnishing them with their farm supplies.

CROP PROSPECTS BRIGHT

The heavy downpours and showers during the past month point toward a bumper crop this year. Growing conditions in the district have never been better than in the case this spring, with comparatively little wind and soil drifting. Moisture coming steadily at the right time, and no damage from cut worms, grasshoppers etc. which have taken such heavy toll in other localities. And but not least, the improvement in grain prices, which has added a pleasing touch to the picture. Not since the slump has the price of wheat maintained as high a level.

RAWLEIGH'S TIMELY SUGGESTIONS—

Fruit Pectin

For your June and July making this year try Rawleigh's Fruit Pectin. Once just about one thing is either "good" or "bad". There are millions of satisfied customers. Never Tires, Sugar and Disappointments.

Rawleigh's Fruit Drinks

Orange and Lemon Flavors are made from ripe, juicy California fruit. They are true fruit Flavors.

These delicious, appetizing, refreshing and invigorating drinks are available in all stores.

Convenient, and costs so little!
A fine drink when company arrives, always ready to be prepared at a moment's notice.

Glass almost 100% satisfaction, and costs only about one cent per glass.

An orange family can be served for all it costs to buy one small drink at the same time.

Rawleigh's Fly Killer

Not only kills the annoying flies and bees, but is also useful to control and kill crawling and biting insects that infest flowers, vegetables, vines and shrubbery. (For this purpose it should be diluted with soap suds.) (Ask for full-size box for directions.)

Obtainable in half gallon and one gallon size (U.S. Standard) also in bulk at reduced prices.

WEDDING

BRUCE - WILSON

A very pretty wedding was celebrated at the home of Mr. and Mrs. L. M. Wilson on Friday afternoon June 14th at 2 o'clock when their daughter, Gwendolyn, became the bride of Mr. Paul Wilson, Jr. of the Victoria office. Only the immediate relatives were present. The bride and groom were Mr. and Mrs. Wilson and Mr. and Mrs. L. M. Wilson. The bride was beautifully dressed in white, and wore a white silk jacket, hat, gloves and shoes. The groom was in a tuxedo. The ceremony was performed by the Rev. Mr. Wilson. The reception was held at the home of Mr. and Mrs. Wilson. The bride and groom were accompanied by their parents. The wedding was a very pretty affair.

Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell where it strikes you how it may end.

Allow the profuse diarrhea, the vomiting and purging to continue, for a day or two, and you may become weak and prostrated.

Just as soon as you feel any lessening of the burden go at once to your drug store and get a bottle of Dr. Frazier's Extract of Wild Raspberry and stork this seasonal attack before the vomiting begins.

—William Caldwell

It is the "leading pack" steadily increasing your liver oil's growing list of benefits for people who have poor blood lipids. Equine and cholesterol are both lowered, and your entire system is kept in balance.

For the best results, take a few capsules. Remember that your liver is the most important organ in your body. It is the only organ that can regenerate itself. It is the only organ that can store fat. It is the only organ that can store vitamins. It is the only organ that can store minerals. It is the only organ that can store hormones. It is the only organ that can store enzymes. It is the only organ that can store antibodies. It is the only organ that can store memory. It is the only organ that can store love.

MEMORIES OF THE

PAST

From the files of the Bathurst
 Star, June 26th, 1919:

The amount received in the
 Agricultural Society's campaign
 funds has nearly reached
 the \$2000 mark.

The L.O.L. are preparing
 for a big day on "the 12th" at
 Alta.

B.A. Foster is building a
 small addition and driveway
 to his residence.

Jim Marshall reports consid-
 erable activity in farm lands
 with several sales recently.

A packed hall greeted the
 speakers at the mass meeting
 in the Lyric hall, Friday, to in-
 corporate the Memorial Hall
 campaign, and standing room
 was at a premium.

Barth Bellis has been very
 busy during the past week.

Mr. and Mrs. Geo. Bamber
 were called to Draydon, Man-
 itowish, during the death of their
 sister, Laura.

"As Pure as . . . BEER!"

Many people may be surprised at this unex-
 pected comparison: "As pure as . . . BEER." Yet it
 is a simple fact that there is no article of food or
 drink produced with greater care and in greater
 purity than the beer of today.

LET'S "DE-SQUEAK" YOUR CAR!

Why does one man get five, ten, fifteen thousand more miles out of his car than another? The answer is simple—Proper LUBRICATION!

Do you wait for squeaks to develop? Do YOU kid yourself you "never" get squeaks under or "it isn't long since I had it done?"

Systematic lubrication, done thoroughly as we do it, avoids regular bumps, keeps your auto in value high and helps you get the most satisfaction from your car. Visit us regularly. It costs less to take care early.

Record Attendance At Moose Sports

Approximately 1,000 People At The Grounds

Proper Beach was crowded on Wednesday for the frolic part of the Moose Sports, and due to the efforts on the part of its members the day was certainly a successful and enjoyable one. The parade, headed by the band, was up to its usual standard this year, and the sports per game commenced at the beach immediately after.

The various ball teams were all in good form and put up some interesting games. Among the other important events were the horseback riding, kiddie races and horseshoe tournament. Due to the excessive hot weather there was plenty of demand for ice cream and soft drinks, and these in charge of the refreshment booth were

SITUATION IN AUSTRIA IS BECOMING ACUTE

The assassination of Chancellor Dollfus of Austria by Nazi revolutionaries has caused much consternation, and war clouds seem to be steadily gathering with Germany, Austria and Italy occupying the centre of the stage.

Watch for the Blue fight picture coming to the Elys hall.

kept busy all through the afternoon.

The spectators arrived, but unfortunately due to no fault of the sports committee, there was no parachute jumper. The plane took up a good many passengers.

About 400 attended the dance in the pavilion, at which Mr. Jackshaw and his musicians crowded themselves.

Mr. R. E. Ansley Gives Address on Social Credit

Mr. R. E. Ansley of Lethbridge addressed a largely attended meeting in the Elys hall last Thursday evening on the subject of Douglas Social Credit. This is the first meeting of its kind to be held in town, and many people were keenly interested in hearing an authority on the subject.

Mr. J. A. Marshall acted as chairman, and gave a graphic outline of the political situation and spoke of the serious state in affairs which exists at the present time.

Mr. Ansley dealt with the Douglas System of Social Credit in a very able manner and enlightened his audience on the various plans connected with this new movement which is sweeping the country like wildfire.

He went back to his school teaching days. When he began to realize the after hopelessness which lay before his scholars. He was disturbed. He thought something should be done, and became keenly interested in the Douglas System as a means of solving our economic

LOCAL ITEMS

Mr. W. Windsor returned to his home in High River on Saturday after visiting a holiday with his sons.

Mr. and Mrs. Cranston returned home Sunday after a visit at the Cumming home.

John McCreich and Robt. Whitelinton returned home on Sunday from Red Deer. The bicycle trip took about 6 hours.

Bruce Cowan is returning en route to some more.

Mr. and Mrs. Duggan returned from a motor trip to Calgary Wednesday, bringing with them Mr. Duggan's mother and sister.

Mrs. Morgan took Andy and the Keaney girls to Sylvan lake on Monday.

Mr. and Mrs. Jack Mansell of Vancouver are on a couple of days at the Dave Pearson home.

is problem.

Unless we changed the present system, we would be led into another war, the speaker said. So long as the control of money remained in the hands of the few, we would have no say as to how our country would be run. It is up to every individual to throw away old-fashioned ideas and find for himself the most logical way out of the middle, then go out and demand that it be put into law.

Mr. Ansley pointed out that this was a man made depression and it was in man's hands to cure it. Just changing parties would do no good; what is needed is a change in system, and the Douglas system offers a solution.

Mr. Ansley drew a laugh from his audience by quoting from Major Douglas: "You are making but a bad thing being waggled by the financial dog."

The speaker emphasized that our troubles were not due to overproduction but rather our own consumption, and attacked the banking system, explaining it caused business to stagnate and put the bankers in a position to control prices.

Under the Douglas system a new financial structure would be set up, in which money, instead, would be issued in accordance to the volume of production. Every individual would receive certain dividends and merchandise would be compensated for any loss caused by the lowering of prices which would take place under the new plan.

A working plan has been drawn up for Alberta, and all that needs now is the work of putting the plan into effect. Mr. Ansley urged his audience to get behind the plan and offered his audience in reviewing the work in our district. Question period was rather long, however, and the speaker gave satisfactory answers to of questions put to him.

SOCIAL CREDIT STUDY GROUP WILL BE FORMED

A public meeting will be held in the Hagarty hall, Bashaw Wednesday at 8 p.m. for the purpose of organizing a Study Group to study the Douglas System of Social Credit and other economic systems.

All interested are invited to be present. There will be no membership fee.

Much discussion is taking place locally of the Douglas system, and possibly the most talked of feature is the "dividend". We believe the proponents of the system would like everyone to know that the "basic dividend" are not intended to encourage idleness but to establish a man to buy what he needs.

Marie Dromer, the popular career star, died on Saturday.

PT. 13 IS ATTRACTING MANY CAMPERS

The recent hot weather has brought a large number of campers and picnickers to Pt. 13, and this well known camping resort has been experiencing a very busy season. The regular road allowance leading to this beach has been graded and is quite passable. Mr. Hamilton informs us he is able to accommodate a few more campers in his cottages, and there will be ample opportunity for fishing, berry picking and swimming.

PROPOSAL TO RAISE

WATER LEVEL OF

BUFFALO LAKE

The lake, with its 125

acres of shore line, is fast

becoming a slough. Its shores

are a mass of dangerous weeds. Its

summer resorts are fast be-

coming a swamp and the natural

beauty is gone. Let us make

an attempt to remedy this and

bring back the waters of this

fine beautiful lake to the natu-

ral level. It can be done if

You are sufficiently interested.

-A. H. F. F.

A petition is being circulated

and will be presented to the

Department of Public Works

for the building of a ditch four

miles in length leading the high

water from the Buffalo river

into Chain lake, and thence

down the natural course by

Parley creek, spilling lake

and creek into Buffalo lake. This

project is there is additional

dam between Battle river

and Buffalo lake, and Buffalo

water will be well advised to get

behind this scheme and have a

petition signed and forwarded to

the Department. It will be a

concrete benefit to our summer

resorts and economy in the

district will result.

MEMORIES OF THE

PAST

From the files of the Bashaw

Review, July 21, 1919:

Winners have fallen

nearly every night for the past

week. Corporal Reg. Parn-

son returned on Saturday from

recovery after serving more

than three years. A large party

headed by Mr. Clegg are

coming of Buffalo lake. Camp-

ing in Alberta forest reserves

has been stopped owing to the

terrible fire situation. John

Leather is shortly giving up

the post office to go on the farm.

Ted Pearson will succeed him.

-A. H. F. F.

Minister of Water Glen M. D.

meeting held July 24 will be

How Plans For Utilization Of Canadian Wheat Surplus By Producing Valuable By-Products

Plans for utilizing the Canadian wheat surplus to produce valuable by-products are being considered by a committee of the Canadian Wheat Board, which is now in session in Ottawa.

The committee is headed by the Hon. J. G. Macdonald, Minister of Agriculture, and is composed of representatives of the Canadian Wheat Board, the Canadian Grain Commission, and the Canadian Food Inspection Agency.

The committee is expected to report to the Minister of Agriculture by the end of the month. It is expected that the committee will recommend that the Canadian Wheat Board be authorized to produce and market by-products of wheat.

The committee is also expected to recommend that the Canadian Wheat Board be authorized to produce and market by-products of wheat.

The Sinking of the Titanic

(Continued from last week)

At 12.30 on orders, "All passengers on deck with life-boats." Women and children were separated from men, but chance distribution of passengers enabled some of the men to be in one class by their being in proximity to boats whose capacity had not been reached.

From 12.45 to 2.05 almost all life boats and two collapsible boats were launched safely while only two remaining collapsible boats were floating off as the ship sank at 2.20. The main promenade deck was under water when the last boats left the decks. The vessel seemed to sink slowly by stern and finally to go down at a vertical position with propellers out of the water. The lights burned until the dynamo room was submerged, and the band played, "Nearer, My God, to Thee," on the deck as the ship went down. Captain Smith and all the Engineering staff perished at their posts, but a few others who clung to the wreckage were subsequently picked up.

In addition to distress, which was kept constantly in operation, signals of wireless were fired, and there were seen by another vessel at a distance of ten miles but were unheard of to the Carpathia, who was on her way from New York to Gibraltar and Genoa with 717 passengers and a crew of 885, full the lot of picking up the survivors in boats. This Cunard Line vessel received the Titanic wireless call for help at 12.35 A.M., while 56 miles away, steaming at a speed of 14 knots, and Captain Arthur Henry Rostron, who later received a medal and thanks of Congress for his part in the

rescue, immediately put his ship about, increasing his speed to over 17 knots and made every preparation for rendering the survivors. The rescued were made comfortable and after it was found that there was no hope of reaching others, the Carpathia turned back to New York. During the voyage, the sad story was witnessed to a horror-stricken world.

There developed a bitter opposition against the Company, due to alleged withholding of the news and the dissemination of inaccurate information, the saving of the managing director, and an abnormal proportion of the crew, the lack of life boats and the running at full speed after warnings of ice had been received; while wireless telegraph intercepts were criticized for varying shortcomings.

NORTH AMERICAN WHEAT SITUATION

(Based on Annual Average Wheat Production 1903-1904)

Due to attempts to maintain the price of wheat in 1903 and 1904, the United States and Canada have been forced to export wheat which have proved to be very much smaller than the amount required for the home market. This year's crop is estimated to be about 1,000,000 bushels less than last year's. The home market is estimated to require about 1,000,000 bushels more than last year's. The result is that the United States and Canada are faced with a serious shortage of wheat for home consumption. The price of wheat is expected to rise sharply in the near future. It is therefore to the interest of all wheat consumers to secure their supplies at once.

Why our Service!

THE BASHAW-MANN & SERVICE
BASHAW
ALBERTA

Money is not a thing in itself. It is a symbol of something else, and has no intrinsic value in its relation to that other thing. That other thing is wealth, and wealth is but a term for things which supply human wants. One might collect all the money in the world and, if the wealth of the world by any chance should vanish, he would have no security for that which had been a symbol of wealth would automatically become a symbol of nothing at all!

A shower was held at the home of Dr. and Mrs. Raper, honor of Miss Judy Stubb, whose marriage to Mr. Fred Stubb takes place today in Mirer. The bride-to-be received a great many gifts, after which a delicious lunch was served by the hostess.

MEMORIES OF THE PAST

From the files of the Bashaw Star, Thursday, Oct. 2, 1919:

A women's branch of the U.F.W.A. was formed here last week with 15 members.

Information is received that the government will take over the G.T.P.

Brunel Ross, formerly of Mirer, have purchased a real estate business at Lacombe.

Ang Stadel had a runaway Monday morning, when his team bolted, doing considerable damage to the wagon.

J Government engineers are busy around Buffalo lake studying the feasibility of irrigating the adjacent land from the lake waters. The engineers feel that the most suitable part of the lake for starting a ditch is at Mr. Traynor's place.

W. J. Holt has returned from a trip to Swift Current.

Ed. Sandwith has rented his place to operate the fair grounds to Dick Wiggins.

WHEAT POOL MEETS ITS OBLIGATIONS

The Provincial Government received payment of \$455,625 from the Alberta Wheat Pool, this being the annual installment of principal and interest due this month on account of the 1923 Pool overpayment. The Pool is living up to its obligations with the Government in a creditable manner.

New Method of Re-Boring Assures Perfect Motor Re-conditioning

Our method of Re-boring is to rebore your cylinder block to within one thousandth of an inch to fitting the proper oversize pistons that are required. Then finishing to the proper clearance with a Stone.

The Men of this process is to true up the worn cylinder wall with the block and crank shaft, which, with constant hammering on one side wears them further, that causes an oil leak once they develop a piston slap, internally means that the cylinder walls are more grooved on one side than on the other.

The old method of using a Stone simply means that the cylinder has been left uneven with the crankshaft. Whereas with the new method of Re-boring that is carried on in one workshop means that we can assure you of a true and smooth motor from finishing.

POPPY DAY

Poignant reminder of those precious days of glory and grieving, "Poppy Day" once more recurs to prompt citizens in the duties they have inherited from the past generation. The blood red emblems distributed throughout Canada by the Canadian Legion are the product of disabled veterans, men striving to maintain themselves in the civilian shops administered by the Dominion Government. To buy a poppy is a small thing, for every citizen to do so is a big thing.

Correct Nutrition

A connection between light and food was established and the conclusion was drawn that food that is "night food," as it was called, possesses in the quality of frequency a virtue absent from all other kinds of food. Students, happily, did not rest content with a generalization on this sweeping and vague band and the work upon vitamin was continued. Today several of these elusive substances have been obtained in state of pure form. In conclusion, there has been sufficient for the collection of "freshness" evidence.

The dissemination of knowledge is, evidently, the first step towards the acquisition of a sound experience and it is, therefore, absolutely, that the need of action is greatest. Teaching must be given at a time when it can be made use of and in such a manner that it can be understood. It has often been pointed out that the mortality among infants began to decline in this country when the generation of schoolgirls who had received the religious instruction given about per-

There can be little doubt that instruction in the buying and preparation and cooking of food if it was given effectively, would bring about a similar diminution in the incidence of many existing diseases and weaknesses. LABOUR MAKES HEAVY GAINS IN BRITISH VOTING

London Labor registered sweeping gains in returns available here from municipal elections held all over England. The heaviest losses were suffered by the Conservatives.

The results were watched with keen interest because the elections are regarded as an unofficial support test of public opinion in view of the probability of a general election next year.

side but in many municipalities in that district the turnover still left the municipal reform party ahead. The municipal reform candidates are broadly classified as Conservatives. With no results complete through-

across eight homes, the Conservatives had gained 12 seats against 160 homes the Labour had gained four and beat 24 and Independent had gained five and beat 16

With results in 11 London boroughs still to come the result in London district showed Labour had gained 227 seats and beat one, the municipal reform (Conservative) group had beat 236 and gained half one while Independent and others had beat 17

Battersea was one London district where the Labour captured enough

Voting in London was watched particularly because there it was the first municipal voting since the general elections of 1951. In that year 28 boroughs voted only once every three years. London elections were

A National emergency is approaching, Churchill said, so he offered the National government for what he said was its legitimacy in committing the program for air defense.

Churchill declared the approaching emergency must be faced "with energy and courage if a safe, coherent and peace-keeping policy is to be found."

London.—By a vote of 221 to 6 the House of Commons passed to the Speaker Ramsey MacDonald's motion, taking away all private members' time during the next session for the discussion of the report of the select committee on India and the subsequent government bill on having the recommendations of the Finance Minister brought into effect. The bill will contain the Finance and would undoubtedly take up the bulk of the government's debate on the report. It will be held forth before Christmas and several days will be required for the committee stage, between Christmas and Easter. From Easter to the end of July the bulk of the house's time would be taken up by the report on the India bill.

An Alameda (U) drafting resolution of self-governing units was advocated in the long-winded report of the select parliamentary committee on

Ottawa. — The Dominion government has just received from the Canadian National Railway the old industrial building in Winnipeg adjacent to the railway terminal there on the corner of Main and Water streets. The purchase price was \$118,000. The industrial building was to be razed and a seven-story department building was to be erected in its place. It will be an excellent building the floor of which will be rented to the railway to house its offices occupying the ground structure.

STEADY PROGRESS

During the last year or more no publication has shown more remarkable stride in the matter of increased circulation than has the Family Herald and Weekly Star. This is an accomplishment for it is evident that in times of stress people are prone to cut down on the number and variety of magazines and papers coming into their homes and they find in the Family Herald & Weekly Star a paper which, at \$1.00 a year, gives them every variety of reading for old and young, all combined in this one publication. Every issue overflows with practical business ideas, stories to the minute, articles, short stories, together with a weekly newspaper section which rounds out a host of reading without expense. Truly it has been well said that the Family Herald & Weekly Star is the best for the best.

A.Y.P.A. NOTES

The AYPA held their weekly meeting at the home of Audrey Morgan on Monday, Nov. 26. After the business meeting we tried the contents and sang songs.

The next meeting will be held on Dec. 3rd at G.H. Rasmussen's residence.

We are starting work on some new plays to be put on early in the new year. Those will be something you will want to attend. Look in the AYPA notes each week for further information.

A festive surprise party was held last Wednesday at the home of Mr. and Mrs. T.A. Hall. After a fitting speech, Mr. Harry Thompson presented a cascade and olive container to Mrs. J. W. McIntosh from the parents and children of the Skibo district, as a mark of appreciation for her services as teacher.

The big wedding over in Stettin will be broadcast by radio.

Grandfather's Clock in Moose Jaw Used To Be 362 Years Old

Turning over the minutes past on Monday no it did away back in 1688, a stately old grandfather's clock in Moose Jaw took on a challenge to Hildesheim, which housed the oldest clock in Canada.

The old timepiece, a clock of old English design made in Hildesheim and about 362 years old, was

United Kingdom's Herbert Currier, who was the tradition for his son.

As the clock was being moved to the town hall of Hildesheim, the clock was made to move the clock to the town hall of Hildesheim.

New Advertising Idea

The mystery of strange voices in the house of Charles, who is stranded in Barcelona, Spain, was revealed on an advertisement involving a vegetable. "I was told that the vegetable was said the vegetables had taken refuge in his house, fearing the authorities," says the advertisement. It said the vegetables had been hired by a slave near the house to boost business.

A "ghost" of the late President Ford, superimposed over one of the most haunting scenes in the movie, is a symbol of the nation's collective memory. The scene is set in the White House, where the President is seen in a moment of quiet reflection, his face etched with the weight of his office. The image is a poignant reminder of the man who led the nation through its darkest hours, a man whose legacy continues to shape the American psyche.

HAPPY NEW YEAR

Another year has passed and although we are not out of the woods yet, there is still hope. The improvement in general conditions which has taken place during the past year is substantial evidence that we are over the worst. It is true that we are not enjoying the very times which came to an end with the stock market slump in 1929. Our capitalistic structure received a severe five years ago which swept away the savings of millions of people and the process of recovering from such a catastrophe must necessarily be slow. It calls for stern perseverance and indomitable courage to fight on in face of mountain handicaps.

That the New Year will bring to you and yours, happiness and prosperity in the fullest measure is the wish of The Bashaw Star.

A.Y.P.A. NOTES

The A.Y.P.A. installed the new officers at their regular meeting on Monday evening as follows: President, Lena Pearson; Vice Pres. Bob Crawford; Sec. Phyllis Rennie; Treasurer, Rev. H. C. Harding Priest, western representative for the General Board of Religious Education. At the installation ceremony and a reception were held in his honor at the home of Mr. and Mrs. Marshall after the meeting.

A very enthusiastic meeting was held recently in Dryden for the purpose of forming a constitution and organizing to further the educational work of Social Credit. J. A. Marshall was named secretary and W. W. O'Connell was the representative of this division in the constituency.

The Alberta Government Savings Branch is commencing a new rate of interest on savings certificates. These certificates will save and offer an attractive rate of interest.

Motorists will welcome the reduction in car license. The resulting loss of revenue will be made up by an increase in the gas tax.

Bashaw Hockey Squad Triumphs Over Innisfail 9-2

MANAGER, REPORT FROM LASHBY

The locals were in full strength on Sunday and celebrated by defeating a strong team from Innisfail in the visiting Innisfail team. Innisfail came with a great reputation, only having lost 1 game this season.

Bashaw started off at a very fast clip and soon gave College some work to do. They proved hard but Bashaw drew first blood. Smith and Thompson breaking through and the former giving Wade no chance.

In a 5-4 tie, however, Spruce equalized from a shot pass by Nichol. Nichol gave them the lead and before the interval nearly added the first after some beautiful combination play with Spruce.

Second period was almost a repetition of the first. Bashaw had most of the play but missed the first shot. Hall scoring with a long hard shot from the blue line. After this the game was all over.

Spruce scored from a shot by Nugent and soon after Nugent went right through on his own and added a 10th. McDowell scored another after Cully had scored a hard drive from Longhouse and before the interval Wells added the seventh from a pass by Longhouse.

Third period saw Bashaw still on top, though Innisfail put on several desperate tactics and Wade made a number of good saves.

Spruce scored his third goal and before the class he noticed Nichol to add yet another.

Only 2 penalties were assessed, both to Innisfail.

Bashaw team put up a splendid exhibition of hockey. Wade in goal made one mistake, but apart from that had enough work to do to show what a capable man he is between the sticks. Nichol and Haggard gave a beautiful exhibition of defensive hockey combined with numerous dangerous looking attacks. Both forward lines played brilliant hockey. Their combination in moving right along. From such an excellent line-up it is hard to pick out the best.

ANY outstanding player. Eddie Spruce was the most effective having three goals and two assists to his credit. He created a splendid impression and looks like being an asset to the team.

Goalkeepers: Wade; Michael; Nugent; Smith; Wells; McDowell; Pease; Hardy; Spruce; White; Nichol.

Goalkeepers: Cully; S. Perry; D. Perry; Hall; Smith; Thompson; Reed; Kneibele; Wells; Carter. S. Jarvis referee.

GRADE IX: H. Cunningham 76; M. Marshall 77; S. Whitman 84; A. Hardy 85; E. Simpson 84; D. Williams 81; L. Longhouse 87.

LAKELAND

Mrs. O. W. Johnson had the mortician to remove her last will but their car was stuck in a snowbank on the way home from the Lakeland concert.

Mrs. C. Humphrey entertained a few friends at dinner Christmas day.

Mrs. Vel Bentley is very ill in Lakeland hospital.

Mr. and Mrs. Brewster spent Xmas in Edmonton.

Geo. Humphrey and several others spent a few days fishing at Pigeon Lake recently.

A train crash in Ontario, on Sunday night, caused the death of fifteen people and the injury of 21. The accident occurred when one passenger train collided with another train at a siding near Hamilton. A mid-western switch was supposed to have caused the accident.

ANY outstanding player. Eddie Spruce was the most effective having three goals and two assists to his credit. He created a splendid impression and looks like being an asset to the team.

Goalkeepers: Wade; Michael; Nugent; Smith; Wells; McDowell; Pease; Hardy; Spruce; White; Nichol.

Goalkeepers: Cully; S. Perry; D. Perry; Hall; Smith; Thompson; Reed; Kneibele; Wells; Carter. S. Jarvis referee.

New system Expected To Have Premier Large Theme

Parliament's introduction of a new system of government in Ontario on Jan. 1 will have the provincial government for \$200,000,000, according to a report in the *Black Star* News. David A. French, Ontario minister of revenue and financial affairs, indicated that the new system would be put into effect by the end of the year.

Under the new system, revenue will be shared between the province and the federal government. The new system will be a major step in the province's move to become a province on a par with the other provinces in Canada.

Principal arguments of delay in the new system are that the province's economy is not strong enough to support the new system. The province's economy is not strong enough to support the new system.

OLING. — An average increase was shown in the export of grain products to the United States in November when they fell to 1,000,000 bushels, compared with 975,000 compared with 980,000 in the corresponding month last year. The increase was 100,000 bushels, or 10 percent. The increase was the steepest in the sale of 1,000,000 bushels of wheat, or 100,000 bushels of wheat of \$1.000,000, the report states.

Exports of grain products to the United States during the 11-month period from November last year amounted to 11,000,000 bushels, or 11 percent more than the corresponding period last year.

Madness' Pioneers

British Columbia's *Voices from Madness* will feature their alternative newspaper at the 1995 National Conference on the British Columbia Legislature in Victoria, B.C. (Sept. 19-20, 1995). It will be the first step in an ongoing battle and will put the issue on the agenda, she said. The government had also decided that members with only one child should be eligible for pensions. After the act passed, the province had been told to make them ineligible.

Heavenly Old Cakes

Don't even think you're too old to bake a cake. The recipe is simple: mix a little love with a lot of flour and sugar. The result is a heavenly cake that's as good as any you've ever tasted. Transvaal Worth \$2,000 to £1,000 in the Province.

At Dorchester, Eng., farmer George Chell's cattle are getting extra-tender these days. While grazing the other day, the cattle picked up a half dozen gold coins which started the farmer digging in his position. He unearthed more than a hundred coins dating back 200 years. The treasure, worth \$2,000, is believed to have been buried during the reign of the Stuarts. 1936.

Discovery Bringing About Instant Relief to Millions

Follow Simple Directions:

When you have a cold, remember the simple treatment pointed here... as prescribed by doctors as the *quickest, safe way*.

Results are amazing. And no dieting, no immediate! Because of Aspirin's quick-disintegrating property, Aspirin "take" is *instant*. No waiting. No delay. No *indigestion*. Your cold is relieved "quicker as you caught it!"

All you do is take Aspirin and drink plenty of water. The "take" is 2 to 4 hours the first day. Less often afterward... if throat is sore, the Aspirin granule will ease it as little as 2 minutes.

Ask your doctor about this. And be sure you get **ASPIRIN** when you need it. It is in the *red box* with all

Man's Battle Against Insects Goes On As Fifteen Thousand New Kinds Are Found Yearly

There is no world in which a new insect is not being discovered every year. The discovery of new insects is a constant process, and it is estimated that there are about 100,000 species of insects in the world. Each year, about 15,000 new species are discovered. This is a testament to the vast diversity of life on Earth and the need for continued research in the field of entomology.

Man's battle against insects is a never-ending one. As new species are discovered, new methods must be developed to control them. This is a constant battle, and it is one that will continue for as long as there are insects on Earth.

The discovery of new insects is a testament to the vast diversity of life on Earth. It is a reminder that there is still much to be learned about the natural world, and that the discovery of new species is a constant process.

GARDENING

One of the most important aspects of gardening is the selection of plants. It is important to choose plants that are well-suited to the climate and soil conditions of the area. This is a key factor in the success of any garden.

At all the Christian Science churches next Sunday the subject of the Lesson-sermon will be "Mortals and Immortals".

The following is one of the scriptural quotations contained in the Lesson-drama: "How after John was put in prison, from came John the Baptist, the servant of the Lord, and saying, The time is fulfilled, and the Kingdom of God is at hand; repent ye, and believe the gospel" (Mark 1:14, 15).

One of the correlative passages from "Science and Health" is with Key to the Scriptures by Mary Baker Eddy, in as follows (see 494) "Just Christian Science, instead of corporal sense, supports your understanding of being, and this understanding will support even with Truth, replace mortality with immortality, and silence discord with harmony."

THE SIGN OF A FAIR DEAL

The Three Star Imperial Oil sign means a place where you can buy with confidence where you get the best of good value and fair treatment.

It is the symbol of an organization that has steadily improved the quality and consistency of the products of Imperial Oil within our vast domain. Now distributed in all parts of Canada, these products are the result of a process of continuous improvement which means that in addition to old and new products, there are new products being developed to meet the needs of the future.

Because they are fairly priced, Imperial Oil products work better, last longer, and are more economical. That is why, through the years, it has been possible to maintain the quality and consistency to lower the price of Imperial products and oils.

in the conservation of wild

game birds.

The committee

is well known to the

and the killing of these birds

and the destruction of their

habits is a step in the right

direction. The worst way, it

is to consider only the present

and to ignore the future.

Many of the more desirable

species of bird life are in

danger of extinction.

It is the duty of the present

generation to protect and

preserve for the future.

It is a more energetic and

well organized effort at conservation

must be made than has yet

been made. Many factors

influence the preservation of

this bird life, such as drought,

and overhunting of game birds

and a vast amount of evidence

has accumulated indicating

that the most detrimental factor

to the preservation of the

game birds is the destruction

FOUR MUNICIPALITIES

CONSIDER HIGHWAY

The Municipality of Law-

son, Lakeland, Edmonton and

Lloyd George have before them

at present for consideration

the project to build a gravelled

highway through portions of

their districts which would

mean a road running south

from Canmore probably about

midway between the two pub-

lic roads, and joining the high-

way near Havel.

The municipality's

action are now working out

plans which will be mutually ac-

ceptable, and as soon as this is

done, the project

may well be a position to

take some action in the matter.

It is understood the govern-

ment is willing to have the

road built on a 67-40 basis, and

that the municipalities' 40%

would be in the nature of a

loan from the government at

low rate of interest. The

highway would give some

assistance as a relief work

measure. One built, the govern-

ment would it, it was stated,

take over maintenance.

It is estimated the road would cost

\$1000 per mile to construct.

Major Douglass says another war would certainly wreck our present economic system. It appears to be badly wrecked already!

At the rate that Europe is going in for armaments it looks like another war before long. Germany has refused to be talked into throwing away her weapons and now it has developed into an armament race between the larger nations. Including Italy, France, England, and the U.S.

If the present civil war continues throughout the country it shouldn't put an end to combining and making.

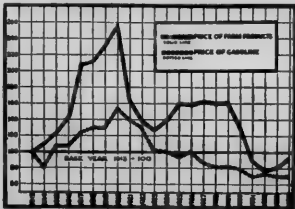

Vancouver is having a bad time with her relief workers which number 2500. Education should be able to sympathize with them. Just say by reports of similar stories in the capital.

REJECT CHANGE IN INDUSTRIAL

DISPUTES AC

Ottawa The senate banking a committee rejected the bill to amend the Industrial Disputes Act arising out of the report of the peace spreads committee.

McGee for rejection of the motion was carried without division. He said that the committee report the bill to the senate with a recommendation.

provision, that it be not further extended for the reason that in the opinion of the committee passage would not be in the public interest and would interfere with the spirit and purpose of the Industrial Disputes Investigation Act which is to prevent by conciliatory methods industrial disputes of branch of the union."

The measure, Mr. McHugh attempted to provide even when there was no cause to fear a strike or lockout that the substance of labor might appoint a board of conciliation on complaint of an individual player or worker of intimidation or discrimination.

The proposal was to try to effect a settlement of a dispute of this character "not of a dispute threatening a strike or lockout but one

"The committee felt," he continues, "that to invite a reference of disputes of that kind to a minister or to thus to impose on him almost a duty to appoint a board, unless

it adequate reasons to the contrary, not only would throw upon him an unnecessary burden. It would place a weapon in the hands of an employer desirous of preventing what he regarded as discrimination by workers, or in the hands of a worker who thought he had been discriminated against by a labor organization." Aside from the constitutional features, it was felt to give parliament to invade such field.

Committee members to consider a resolution to instigate would be entirely free to dominate jurisdiction under the British North America Act, the committee considered. The power of such boards to secure witnesses, resist interference or deal with persons who refused to testify was doubtful.

Committee members had not taken the view the constitutional dispute alone was sufficient to warrant proceeding no further with the bill. "It considered on its merits it was

The present act gave ample provision where there was reason for labor minister exerting his efforts towards conciliation.

BIG VALLEY TO HAVE HIGH SCH. DORMITORY

If anything new is in the way of educational facilities is planned in Big Valley following a meeting on June 12 of the residents of that town. The majority were parents of high school students, and expressed their intention to establish a dormitory in Big Valley in connection with the high school, so that pupils from the district can live under proper supervision and attend the school, paying in kind for their board and room.

Economic conditions forced the parents of pupils who have reached high school to aim to experiment with the dormitory idea. Conditions, as regard crops have been such the past few years that few students who have completed their Grade 12 in the country are able to get into town and board where the financial obligation is very large, and the dormitory plan has been advanced to meet this state of affairs.

The dormitory is for high school students in the Big Valley district and also for any other district as long as the accommodation lasts. It will be run at the actual cost of operation as it is intended for the purpose of giving a chance to rural students to complete their high school course where financial conditions have prevented them from doing so. It is not intended as a system whereby anyone may make money in any way.

It is authoritatively understood from other centres where dormitories are conducted that even with paying a small salary of perhaps \$25 monthly for supervision, the individual cost to each student would be about \$8.00 a month.

At present, attending will be given the opportunity of providing a large part of the payment in food. All cooking, washing and so forth will be done in the one building and the supervisor will have private quarters in the same building and be responsible for the general management of the work. A building, free of rent and partly equipped has been offered for use of the project. A dormitory board of five members was appointed to arrange for hiring a supervisor to live in the building and manage affairs, according to usual regulations in matters of this nature. The board will receive applications from students desiring to enter the dormitory this fall.

The accompanying chart shows how the price of gasoline in the United States has changed since the gasoline tax was imposed in 1913. The data for the graph are based on figures published by the Petroleum Institute of Houston.

FALLING PRICES—RISING TAXES

In 1913 the average price to the consumer of all gasoline sold in Canada was 24.6 cents per Imperial gallon. Since 1913 the price has fallen almost continuously and for 1935 and 1936 it stood at 18.5 cents—nearly one-half as much as in 1913.

"But," you say, "gasoline does not cost you either more than a gallon than you pay."

You are right, and this is why:

In 1913 the gasoline was sold in Canada at the retail gasoline tax of 1.5 cents in that year amounted to

an average of only a half more than 1/2 of one cent for each gallon consumed. But as the price of gasoline fell the tax on gasoline rose to higher and higher levels until in 1935 it amounted to nearly 14 cents for each gallon consumed in Canada.

When you buy a gallon of Imperial gasoline you also pay either more or less than 13 1/2 cents more or less than the price which Imperial Oil earned on each gallon of gasoline that it made and sold during 1935 was just over 5/10 of one cent per Imperial gallon.

The cost of living index as reported by the U.S. Bureau of Labor Statistics for the month of June 1936 is 100.00. The cost of living index for the month of June 1935 was 98.00. The cost of living index for the month of June 1934 was 96.00.

LIVING COSTS MORE BUT GASOLINE COSTS LESS

The cost of living in Canada in 1934 was approximately 30 per cent higher and the price of gasoline 50 per cent lower than in 1935. The price of gasoline over rose in as high a peak in the cost of living. These two gasoline prices have declined almost continuously to the present low level.

Impaired Oil has always kept the estimated cost of doing business and has always passed on to the consumer the burden of such increases. Impaired Oil operates on a very small profit and to add cost on average of slightly more than one-half of one cent per gallon on gasoline.

The only gasoline cheaper than ours is the one that is sold in the United States. Impaired Oil is a leading factor in developing fuel for the motor car. Impaired gasoline of 1935 is a far better gasoline than that of 1934 and is sold at a price considerably lower.

DIVIDENDS ISSUED

There are 24 FRANK com-

panies where no local taxes are

levied and the inhabitants are

in a measure receiving a divi-

dend from the municipality.

The dividends range from

100 francs (about 12c) to 1000

francs a year for the taxpayers

of cities and towns which com-

prise about 10,000 people.

Municipal ownership of ex-

cess and for the city of

the forest so well that after

all the same expenses which

fall on the taxpayers have been

met, there is left a profit

which is divided among the

inhabitants.

In Chaux de Fonds, an

attractive mountain resort may

be taken as the best example.

During the past century no

taxes have been levied, and

every year each inhabitant, man

and child, has received a

dividend of 100 francs (about

12c) for the year.

Every citizen who wishes to

house receives a free plot of

land with free supply of stone

and sand. Making attention

to the town is cheap, for the

doctor receives a subsidy. The

elementary school is no more

than a matter of fact. In fact,

all that much of it can be said

to be the taxpayers' income.

Valleys are welcome in these

townships because they do not

have to become permanent

residents and share in the divi-

dend.

STEVENS WILL TRY TO LIFT LOAD FROM MUNICIPALITIES

Cities and small municipalities are bearing an undue proportion of the burden of relief, declares Hon. H. H. Stevens, former Minister of Trade and Commerce in the Bennett administration. The cost of relief to municipalities is becoming an unbearable burden due to the variations of their sources of revenue. Taxes have been forced up to the point where homeowners are unable to meet their obligations and therefore arrears and foreclosures have become a problem. This is a national problem and Federal and Provincial governments should bear a much larger proportion.

The Reconstruction party stands for the decentralization of power and wealth so that all who toil may have a larger share of the wealth they produce. Mr. Stevens proposes, to do this by the establishment of lower interest rates and stabilizing prices to the farmer. He would give new opportunity for all who are willing to work, particularly on the farm, and would extend to sympathy to the slacker and the agitator.

In order to ensure that the wealth produced shall be shared by all, he proposes plans which will result in the absorbing of the present unemployed and which will ultimately tend to a more equitable distribution by all.

CEREAL CROPS FIELD AT LACOMBE, AUG. 14

The annual cereal crops field day will be held at the Dominion Experimental Station, Lacombe on Wednesday, Aug. 14. This is always one of the largest and most important field days of the summer and this year there are several new varieties, and many marked differences of yield, earliness, strength of straw, and general suitability to climate and soil.

The one thousand plots of the Dominion Crop Testing plan will make a most interesting subject for comparison and discussion. Many grain growing experts of Canada will be at the station to take part in the discussions and answer questions.

RUST IN WESTERN CANADA

Officials of the Dominion Rust Research Laboratory, Winnipeg, state that spores of black stem rust have been discovered on the wheat plant in Manitoba and Saskatchewan and that the infection appears to be spreading west and north.

Proceedings for the day were held with high mass, said in the parish Catholic church, by Father [Name] and by Father [Name] of St. [Name]. In the church grounds stands monument erected to the memory [Name] who fell in the four-day battle.

Heat supplied by the Division government, was the fare by the visitors at a banquet held on the sport grounds shortly after church service.

W. A. Boucher, rev. of St. Louis University and a director of the Northwestern Association of Rural Sociologists, was the main speaker. After welcoming delegates from distant points, he told of the early history of Blaine, born, in 1875, when the settlement was founded, following the founding of a Roman Catholic church with Father Moulton.

At Blaine, the speaker stated, the first

The speaker traced the happenings of the rebellion, blaming the misunderstanding for the strife. After the rebellion, Matcoche municipality had developed into one of the poorest and most backward areas in

The latter, crashing barrier after barrier to swallow thousands new acres of fertile farmland, has al-

...the entire miles of the Wheatung command. Governor Nien Fu Chen of Hsantung sent an urgent telegram to Peking regarding nearly 3,000,000 of his people homeless. The neighboring provinces of Hopei, Honan and Shantung are also seriously hit. Government authorities and relief agencies said the Yangtze's devastation of the five provinces affected is immense but it still is impossible to estimate the total losses.

And May Not United States Crop
Be Shook

St. Paul, Minn. — Shock and dismay at the spring wheat belt as dairy farmers forecast a 90 per cent. reduction in the domestic crop of snowdrifted promises.

Increasing violence in the rust stricken, with continued hot, burned weather, led competent authority to set at half the originally estimated yield of 373,000,000 bushels from the rust grain belt of the United States.

LOW... GRAIN STORAGE
RATES

Something new in the history of the grain business in western Canada developed this week when the Alberta Feed Elevators commenced its scheme of cutting the storage rates for grain carried in its elevators by approximately one shilling, effective from August 31, 1935 to August 31, 1936.

Feed Elevators will charge 10c a bushel a day for grain in elevators instead of 11c a bushel a day... the new scheme has prevailed for many years. The new rate will apply on grain stored in its own old country houses as well as in its 4 terminals at the Pacific coast.

Alberta Feed Elevators is a co-operative association owned and operated by Alberta farmers. In that position it considers it a privilege to be instrumental in reducing costs to grain growers in a year when crops have suffered severely through hail and frost.

SOMETHING TO THINK ABOUT

Anybody can enjoy a beautiful day when there is nothing to enjoy. Any kind of a sailor can enjoy a sail-boat. Any kind of a mother can enjoy the village band playing. But every day is not beautiful; the ocean is not peaceful, and sailing is something more than something down the village street. Somehow we just must get this mark; we are just motionless all we are able to catch up with is the difficulties. Failing in any kind of need is always fatal. Something up to life; taking the hard line; turning the failures into successes are out the plain duties that come to each of us. To be the salt of the earth, but if the salt loses its flavor, it is worthless; it is good for nothing; but to be salt, and to be a Christian by living successfully, it is to be a man of salt.

The touch of a Christian can make a Christian; but only the touch of Christ can make a man a Christian. Salt can only render fully Christian by living successfully; it is to be a man of salt, renewed by the touch of Christ.

My and Mrs W. Scott, Mrs. Marion Scott, Mrs. Whitby and Mrs. Whitcomb went to the W. I. convention at Didsbury on Thursday. They had some really good on the way home and we understood that the ladies got out and pushed.

The U.G.C. speaker at Armstrong of which Marion Spilars is agent, turned on Saturday.

Some of us are not Christian indeed we are not partly Christianized. Some of us have not come near enough to Jesus to receive the Divine touch that turns conversion from a living salt, then we are not positive forces in the redemption of the world.

Let us seek that touch again and again, let us live into that vision and we be changed from this great mystery of redemptive effort to Jesus, to which each of us have been called of God.

We have out-of-sorts today just to the degree that we have lost our saltiness, and our power to serve and accordingly we are being "renewed into the touch of Christ."

Problems Of Production Studied Under Prairie Rehabilitation Program

An important and very practical phase of the Prairie Provinces Rehabilitation program centers around the study of production problems. The studies of production, covering drought and soil erosion, are being carried out by the Prairie Provinces Rehabilitation Commission, which is a joint effort of the federal government and the provinces of Alberta, Saskatchewan and Manitoba.

As a result of the studies, the Prairie Provinces Rehabilitation Commission has established a series of sub-committees to study the various aspects of production problems. These sub-committees are: the Soil Erosion Sub-committee, the Drought Sub-committee, the Fertilizer Sub-committee, the Irrigation Sub-committee, the Pests and Diseases Sub-committee, and the Livestock Sub-committee.

The Soil Erosion Sub-committee is headed by Dr. J. H. Ridd, of the University of Alberta. It is studying the various causes of soil erosion and is recommending measures to prevent it. The Drought Sub-committee is headed by Dr. J. H. Ridd and is studying the various causes of drought and is recommending measures to prevent it.

"The **"ASPIRIN"** advertisement is a black and white photograph of a newspaper page. The page features a large, bold headline at the top that reads "ASPIRIN". Below the headline, there is a sub-headline that says "The World's Most Famous Painkiller". The main body of the advertisement contains several columns of text, which are partially obscured by the large, bold headline. The text appears to be a promotional message for Aspirin, highlighting its effectiveness and widespread use. The overall layout is typical of a mid-20th-century newspaper advertisement.

He convinced the jury in England that the world has recovered enough knowledge more to know that prices are being raised 7 1/2 per cent, and there is to be confidence that all stores offered will be sold.

Altogether, stores worth more than \$15,000,000 will be offered to selected buyers from all parts of the world within two months.

The Diamond Corporation, which has accumulated \$65,000,000 worth of stones during the year of depression, has been awarded a quota in the sales.

Illustrations already have been submitted from the jewelry stores in Amsterdam, Antwerp, Vienna, Paris, Bombay and New York.

The central selling agency of the diamond groups is in a four-story building off Bethune. Every foreigner who has been in the city since 1914 has been in the building.

WEDNESDAY THE TIMES

ABOUT

On Monday morning, rightly or wrongly, I ventured to say, "this snow will all go." The reply I received was, "too good to be true."

But after all is said and done isn't there a good deal of paganism in our use of this phrase? Is it not any remaining then back of these words there must be some sort of conviction that this is a kind of a devil world in which good things do not exist and are not to be expected.

But looking back over our lives we see it is really really good things have happened to us, and in the light of experience for things, if not, are very too good to be true.

To believe and peculiar in thought and action an illogical of faith, at the heart of things is to be unfaith to life, untrue to experience and unjust to self and God. We are making the greatest possible mistake, when we judge God to be a foe to human happiness. Insofar as we do not enjoy all the good things nature ought to enjoy, to be fair to, must place the blame somewhere else, not on God. "Eye hath not seen nor heard neither hath entered into the heart of man the word (things) God has prepared for him."

T. J. Slatton.

WEEDINGS

LOUGHELAN-TARKER

A very pretty wedding was celebrated at St. Charles church, Edmonton on Nov. 10, when Miss Helen Tarkner became the bride of Mr. R.H. Lougheylan. The bride looked lovely in a gown of light red velvet, with white lace and tulle. Miss Helen Tarkner was her bridesmaid. The Rev. J. G. Pearson officiated at the ceremony. The happy young couple, after enjoying a honeymoon in Edmonton, will make their home at the Emerson Service house.

Seed Stock Verified For Purity Every Year

The rules and regulations of the Canadian Seed Growers Association make it necessary for growers of white stock seed to have their seed stocks verified for purity every year.

After the secretary of the associated fathers in the seed station of the var. corn growers who have 1/2 acre, and half of each sample is given a number and submitted to the Central Division, Central Experiment Station, Ottawa for a growing test.

At the Central Farm these samples are sown in five small plots which provide on the average 1200 to 1,500 plants for testing. As soon as the plants are up to eight inches high, the assistant in charge of the particular crop involved, wheat, oats or barley, on the one may be instructed, by note and action, to

in the plot which may be abandoned for the variety concerned. Then, at the week intervals until harvest, the plants are examined for ear-feeding insects which are kept on the plots and any "off-type" or suspicious heads are tagged with small labels. These so-called "off-type" may and usually are off type, but, from experience, it has been found that suspicious heads are often the start of a break-up in the strain. Thus, at harvest time, any heads marked "off-type" in the strain are removed and put away for close, critical examination in the laboratory. The contents of each plot is putted and the heads kept for reference, should any

The marked hands are then critically examined and a detailed report submitted on each test to the secretary of the association. As a further test, not only of the grower's seed stock, but also of the one responsible for verifying the seed, the seed from the suspicious, marked hands is sown and a check made on the resulting progeny. This test is very interesting in that surprises are frequently justified, and one finds that a diversity of types result from this test.

The Central Division is at work

most tight. During the past few years, due to these frequent tests, there are very few off-type heads found, compared to the conditions pertaining when this ventilation test was first originated, about 1926. The quality and purity of most strains is above reproach, and it is only in the odd case where by accident some impurity has crept in or where natural crossing produces irregularities.—J. G. C. Fraser, Central Experimental Farm, Ottawa.

Japanese Strangestrophers Share 2,800 Characters To Work With

Strangestrophers who feel that the 47 ways of the standard Occidental system are plenty to punch, should be glad that they do not follow their vocation in Japan.

The Nipponese manipulators of typewriters have to struggle with a keyboard having 2,800 characters to be poked out by hand.

The slugs have individual compartments in a sliding tray. The strangestropher must press a knob in

When the knob is moved directly over the selected character, pressure is exerted. A metal arm pushes the type upward, passes its face across a tiny ink roller and against the paper which is ruled on a drum. The drum shifts and revolves as the letter progresses.

New Soils Laboratory

The new Dominion Soils Laboratory at Swift Current, Saskatchewan, is under process of construction. The laboratory will be the headquarters for investigations in connection with soil drifting, moisture conservation, and all other problems affecting soil crop production in the Prairie Provinces.

For outstanding achievement as a farmer, home-builder and citizen, Joseph Stringer, dairy farmer of Grundell, has been awarded the Master Farmer gold medal and certificate by a rural magazine published at Winnipeg.

The road immediately south of Shellbrook school has blown full since it was plowed out a week ago, but the road by Lorne Wilson's is open for a ways.

We are glad to see the town planning to keep the south road open.

SOMETHING TO THINK ABOUT

It is no small part of our trouble today that the place and power of the Holy Spirit has been forgotten. When we read the book of Acts we learn how these people lived with the Holy Spirit. So show it.

Our immediate problem is not a problem of intellect, nor politics nor economics. It is a problem of life. So far from living up to the height of our possibilities we are not in any far measure living up to the height we have. We are not doing what we will know we ought to do. "Ye call me Lord and ye do not, for as I said," said Jesus, "but why do ye not, the things I say?" Why don't we? It is far more in purpose, lack of courage? A weakness in character? We are living at a poor dying rate. What we need is to see and recognize the real value of life and then to Heaven, for that gift.

What is a mistake, a mistake due to our false idea of evolution. We have gotten into the rut of thinking of evolution as a steady climb up a long grade. It is nothing of the kind. Evolution's path is more than frequently marked by stumbling and inexplicable jumps. At Pentecost you have the glory of one such jump. This miraculous transformation of Peter really happened in less than a day. There are long, slow processes in life, but there are times when the process is speeded up, and often in a moment, in the twinkling of an eye it is a new life released from death to life, and the life of an age. Lifted from mere to healing point in its practice in spiritual things. Such is life's greatest need today. What am I going to do about it? What am you?
